Etiqua全國首推 獨立且涵蓋精神病伊險計劃

· (吉隆坡13日讯) Etiqua保险推出我国首个独立的严重疾病伊斯兰保险计划AafiahCare, 涵盖多达68种严重疾病, 包括精神疾病。

根据卫生部的统计显示, 有高达29.2%的大马人患有精神疾病。面对精神健康问题的人数, 在1996年至2015年间呈双位数增长, 确诊者多达420万人, 增长趋势令人堪忧。

Etiqua家庭伊险公司 (Etiqua Family Takaful Berhad) 总执行长查非里透过文告指出: “治疗精神疾病可以十分昂贵, 因为它不是一种能轻易和快速治好的疾病。Etiqua于去年推出附带精神疾病项目的严重疾病附加保险 (简称ILCI Plus)。推出一个月后, 就取得了20%的增长。”

“由于看到市场对独立严重疾病产品的需求, 因此推出了AafiahCare。”

AafiahCare涵盖四种类型的精神疾病: 躁郁症 (Bipolar Affective Disorder)、重度抑郁症 (Major Depressive Disorder)、精神分裂症 (Schizophrenia) 及情感型精神分裂症 (Schizoaffective Disorder)。

THE growing need in coverage for mental illness has spurred insurance group Etiqa to launch AafiahCare, the first-in-Malaysia standalone Takaful Critical Illness plan that covers 68 critical illnesses.

According to a statement last week, Etiqa noted the number of Malaysians suffering from mental health problems was a worrying trend with 29.2% suffering from this illness, a double-digit increase between 1996 and 2015 with 4.2 million people diagnosed.

Etiqa Family Takaful Bhd CEO Zafri Ab Halim (*picture*) said mental illness is costly to treat and is not easily cured.

“Since the launch of our Critical Illness Rider (IL CI Plus) with mental illness coverage last year, Etiqa has seen an increased demand of 20% one month after IL CI Plus was launched,” he said.

Zafri said the group is encouraged by this response and AafiahCare is in line with the principles of value-based initiatives (VBI) to support people, planet and prosperity.
